Subject: Objection to Planning proposals for Little Melton

Dear Sirs,

Re Village Clusters Housing Allocation Plan Regulation 18 Public Consultation
in respect of

Little Melton Parish Council Local Plan 2022

I fully support all the objections raised by the Parish Council in respect of the proposed developments, and in particular to sites SN4052 and SN0488.

Little Melton is a village and does not have the infrastructure to support yet more housing developments.

Hethersett surgery is at full capacity and cannot expand, despite 1200 new houses having been built between here and Hethersett.

This has also significantly increased the traffic flow through the narrow roads in the village.

Flooding occurs on most of the roads now.

The village shop will close due to retirement.

As far as I am aware we do not have a bus service into Norwich now, merely a 2 hourly service to the hospital.

This is more development than was originally proposed, and will destroy the habitat for wildlife and hedgerows - things many people moved to the village for in the first place.

Yours faithfully,
