Please be advised:-

- The attached plan is to scale when printed on A4 unless stated otherwise.
- This plan shows highway boundary data in relation to physical features plotted by Ordnance Survey.
- Measurements scaled from this plan may not match measurements between the same points on the ground.
- Green hatching represents publicly maintainable highway in the meaning of the Highways Act 1980.
- Areas without green hatching may still be public highway that has not been researched, verified or recorded.
- Only the green hatching surrounding the requested area of interest has been verified.
- This data is valid at date of publication and can be subject to change.
- This data is intended for use by the recipient only and should not be passed to third parties.
- For drainage ditches that have never been depicted on any OS mapping and that have subsequently been found to have been piped, the highway boundary line will change to the approximate road-side edge of the original drainage ditch as no highway rights can be proved to have been established on the land occupied by the drainage ditch. The adjacent landowner will most likely be the riparian owner of the drainage ditch (open or piped) and the land that it occupies will be regarded as private.
- Please direct all highway boundary enquiries to highway.boundaries@norfolk.gov.uk
